Material.io

[Enlace.](#)

The image shows the Material.io color palette interface. At the top, there are two tabs: "MATERIAL PALETTE" and "CUSTOM". The "CUSTOM" tab is selected. Below the tabs is a color picker consisting of a circular color wheel and a vertical gradient bar. A white location pin icon is positioned on the gradient bar, and the hex color "#2e2e2e" is displayed next to it. Below the color picker is a section titled "CURRENT SCHEME" with a "RESET ALL" button. The "CURRENT SCHEME" section is divided into three columns: "Primary", "Secondary", and "Text on P". The "Primary" column shows a dark grey background with a pink circle containing the letter "P", the hex color "#2e2e2e", and a "RESET" button. Below this are two smaller boxes: "P - Light #575757" and "P - Dark #030303". The "Secondary" column shows a dark purple background with a white circle containing the letter "S", the hex color "#540031", and a "RESET" button. Below this are two smaller boxes: "S - Light #84335a" and "S - Dark #2d0009". The "Text on P" column shows a dark grey background with a white circle containing the letter "T", the hex color "#f2c4df", and a "RESET" button. Below this is a "Text on S" section showing a dark purple background with a white circle containing the letter "T", the hex color "#f2c4df", and a "RESET" button.
